

30 PORTS USB CHARGER

Model: VCS-W3600P

FEATURES

1. Adopting DSP intelligent control protection chip to ensure that in the event of unexpected faults such as short circuits during charging, the power output is automatically cut off without affecting the normal charging of other ports, making charging safer and more stable
2. Adopting environmentally friendly materials for high-performance switching power supply, ensuring stable and reliable power supply;
3. Equipped with 30 USB charging interfaces, capable of charging 30 units;
4. Equipped with charging over current protection to prevent excessive battery charging current;
5. Equipped with overcharging protection to prevent overcharging of the battery;

SPECIFICATIONS

Model	VCS-W3600P
Power supply	AC110V-220V/50Hz
Output voltage	5V
Size (LxWxH)	483mm x 235mm x 45.3mm
Weight	2.9 kg
